From the Editor's Desk.....

Dear Readers...

Our Institution is one of the magnificent contributions by Jain community. It was established in 1997 with the objective of catering to the academic needs of the down trodden people in rural areas, struggling to eke out a living and striving to see their children educated. Ever since its inception, our college has been placing on record, numerous note worthy achievements.

Releasing News letters periodically has been our long cherished goal. This maiden volume in your hands is an outcome of our desire and an outlet for information related to this temple of learning.

It is another small step by us towards a giant leap. Similar to "LIVE AND LET LIVE" which is the tenet of Jain Philosophy, "READ - AND MAKE OTHERS READ" is my earnest appeal to all the readers of our News letter. The rest, in our next.
